## Project Manager

**Date posted**

May 25, 2018

### Description

We're hiring a self-motivated Project Manager with experience running technical programs and teams to get things done. The successful candidate will work directly with clients and company senior executive staff to ensure deliverables fall within the applicable scope and meet or exceed customer expectations. We are looking for a creative and dedicated individual who will fit with our collaborative culture. If you enjoy working with other professionals who believe in creating innovative solutions to problems, we encourage you to apply.

### Responsibilities

- Provide governance throughout project life cycle
- Produce and deliver quality collateral both internally and externally
- Maintain exceptional relationships with all stakeholders, customers, and employees
- Deliver multiple projects simultaneously
- Develop comprehensive project plans
- Track and report on project performance

### Qualifications

#### Required

- PMP Certification
- Microsoft Project proficient
- Microsoft Office proficient
- Ability to successfully direct multiple vendors (subcontractors) and multiple projects
- Ability to lead meetings that will include a full spectrum of participants
- Excellent client-facing communication and presentation skills
- Ability to work independently as well as in a team environment
- Ability to produce accurate and timely information/reports as required
- Strong written and oral communication skills
- Indisputable integrity
- Attention to detail
- Must pass a background check

#### Desired

- Practical experience with PMP processes
- Experience with a managed services provider or managed security service provider environment
- Experience with networks and infrastructure and surrounding technologies
- Familiar with ITIL processes
- Familiar with NIST 800-53
- An understanding of ICS/OT Systems
- Military experience is a plus
